

Streamlined solutions
to achieve
maximum efficiency

LEGAL SOLUTIONS

ADEC Solutions brings its 12 years of experience and resources in data management services to the Legal Solutions industry, particularly for complicated and drawn-out cases where speed and accuracy are essential.

With the adoption of technology changing the legal profession landscape, fast and high-quality transcription services are now considered to be indispensable tools for legal practitioners. This is the driving force behind data solutions providers who strive to fill the growing demand for fast, reliable legal data services.

ADEC Solutions' team of highly-trained and experienced transcriptionists in the transcription of Court proceedings are able to simplify the normally tedious task of court reporting by providing the same quality, integrity, and professionalism in transcribing sound recordings as it does to court reporting. ADEC Solutions' streamlined audio transcription process enables ADEC to work globally as easily and efficiently as working locally.

How does it work?

Court proceedings are generally recorded by a Court officer or an appointed technician. Audio files are then labeled and uploaded to a server, emailed together with a log or burned on a CD for pick up at the end of the Court proceeding or following day. This audio file is then received by our experienced transcription team.

All Cases are captured verbatim, quickly and accurately within ADEC's state-of-the-art audio transcription process for quality control to minimize errors to maintain required accuracy levels both for analog recordings and digital files thus processing them in a confidential, secure, timely, and cost-effective environment. This underscores a clear understanding of the need for accuracy and security in legal cases where life-changing decisions hinge on the accuracy of the information for any case or issue.

LEGAL SOLUTIONS

Our global pool of transcribers allows us to deliver the transcribed cases to our clients on a variety of turnaround time. Our rates are competitive and transcripts are subjected to frequent quality control checks. We utilize a number of transcription formats but can vary the style to meet our client's specific requirements.

High level of Data Accuracy and Security

ADEC Solutions has a clear understanding of the need for accuracy, reliability and security in any data-driven industry. ADEC is also equipped with state-of-the-art data service applications which have time-tested fail-safe systems for preventing leakage from storage to retrieval, assuring the highest level of confidentiality based on strict in-house policies on all processed information.

Full Scope of Court Transcription Services

Contact us online for all of your real-time and verbatim court reporting services, document management services and litigation support - from simple lawsuits to highly-technical (and complicated) court proceedings. ADEC Solutions is capable of handling transcriptions for any legal requirement in any format - whether voice or video. This includes recordings on cassette, CDs/DVDs, video, digital recording, and web-based audio files.
